Cynthia M. Lott's *Women and Media* content careers and criticism brings you an incisive and often surprising look at the experiences of women in the media as news and as newsmakers in this vivid collection of essays. Leading scholars and media watchers consider the images, issues, and hidden triumphs of women in seven different media: newspapers, women's magazines, advertising, television, television news, film, and music. *Women and Media* takes an exceptionally comprehensive approach, exploring women's experiences in each medium from three different angles: a content analysis of the portrayal of women within the medium, an account of a woman or women's organization and their often overlooked impact on the medium, and a thought-provoking essay that raises critical and challenging issues concerning women and media today. Written from a diverse range of perspectives, the essays cross boundaries of age, race, and nationality. Each media-specific section begins with an overview that provides a brief history as well as background information on women's employment and portrayal within that medium. An extensive bibliography, including a videography and project suggestions, encourage you to dig deeper into the rich lives and real issues of women and the media.

Yet at the dawn of this new century, only a proverbial handful of physicians who deal with vision-related eye diseases, such as glaucoma or diabetes, are African American. *Breaking the Color Line in Medicine: African Americans in Ophthalmology* is a groundbreaking text documenting an often overlooked topic within the world of medicine and ophthalmology. Through intensive research, Lenworth N. Johnson, MD, and O. C. Bobby Daniels, EdD, present the evolution of African Americans in this noble field of medicine.

This anthology for first and second year students introduces them to the history of key ideas in the modern period related to sexual difference, gender, race, class, and sexuality. While most introductory women's studies textbooks focus on the United States, even if they add multiculturalism to the discussion, this book looks at the history of important differences between women in diverse locations around the world and continually challenges students to think through the issues that are raised. This transnational approach to understanding gender brings women's studies into an era of globalization and connects women's issues in the United States to women's issues elsewhere. The book shows how colonialism and imperialism, as they spread across the world, shaped ideas about gender, as much as other modern phenomena. It addresses issues of power and inequalities and focuses on links and connections rather than commonalities. The readings are truly interdisciplinary, drawing upon scholarly work in many disciplines and interdisciplinary.
