the rise of the memoir traces the growth and extraordinarily wide appeal of the memoir its territory is private rather than public life shame guilt and embarrassment not the achievements celebrated in the public record what accounts for the sharp need writers like rousseau woolf orwell nabokov primo levi and maxine hong kingston felt to write and to publish such works when they might more easily have chosen to remain silent alex zwerdling explores why each of these writers felt compelled to write them as that story can be reconstructed from personal materials available in archival collections what internal conflicts they encountered while trying and how each of them resisted the private and public pressures to stop themselves rather than pursuing this confessional route against their own doubts without a reasonable expectation that such works would be welcome in print and eventually find an empathetic audience reconstructing this process in which a dubious project eventually becomes a compelling product a memoir that will last illuminates both what was at stake and why this serially invented open form has reshaped the expectations of readers who welcomed a vital alternative to the official story

sources for studying the holocaust provides a pathway for readers to engage with questions about what sources can be used to study the holocaust for many historians the challenge has been how to rescue the story from oblivion when oft used sources for other periods of history introduce even more issues around authenticity and reliability what can be learned of what transpired in villages and towns numbering several thousand people when all its jewish inhabitants were totally obliterated through nazi action who can furnish eyewitness testimony if all the eyewitnesses were killed how does one examine written records preserving knowledge of facts or events where none were kept or survived the onslaught and what weight do we put upon such resources which did manage to endure the destruction wrought by the holocaust each chapter looks at one of a diverse range of source materials from which scholars have rescued the history including survivor testimony diaries letters newspaper accounts photographs trial documents artefacts digital resources memorials films literature and art each chapter shows how different types of records can be utilised as accurate sources for the writing of holocaust history collectively they highlight the ways in which all material even the most fragmentary can be employed to recreate a reliable record of what happened during the holocaust and show how all sources considered can be employed to find meaning and understanding by exploring a range of sources deeply this book is a unique analysis of the types of sources that can be used to access the history of holocaust it will be of invaluable interest to readers students and researchers of the holocaust

nearly eighty years have passed since the holocaust there have been hundreds of memoirs histories and novels written about it yet many fear that this important event may fall into oblivion as holocaust survivors pass away their legacy of suffering tenacity and courage could be forgotten it is up to each generation to commemorate the victims preserve their life stories and hopefully help prevent such catastrophes these were my main motivations in writing this book holocaust memories which includes reviews of memoirs histories biographies novels and films about the holocaust it was difficult to choose among the multitude of books on the

subject that deserve our attention i made my selections based partly on the works that are considered to be the most important on the subject partly on wishing to offer some historical background about the holocaust in different countries and regions that were occupied by or allied themselves with nazi germany and partly on my personal preferences interests and knowledge the nazis targeted european jews as their main victims so my book focuses primarily on them at the same time since the nazis also targeted other groups they considered dangerous and inferior i also review books about the sufferings of the gypsies the poles and other groups that fell victim to the nazi regimes in the last part i review books that discuss other genocides and crimes against humanity including the stalinist mass purges the cambodian massacres by the pol pot regime and the rwandan genocide i want to emphasize that history can indeed repeat itself even if in different forms and contexts just as the jews of europe were not the only targets of genocide fascist regimes were not its only perpetrators
