the people place and space reader brings together the writings of scholars designers and activists from a variety of fields to make sense of the makings and meanings of the world we inhabit they help us to understand the relationships between people and the environment at all scales and to consider the active roles individuals groups and social structures play in creating the environments in which people live work and play these readings highlight the ways in which space and place are produced through large and small scale social political and economic practices and offer new ways to think about

how people engage the environment in multiple and diverse ways providing an essential resource for students of urban studies geography sociology and many other areas this book brings together important but till now widely dispersed writings across many inter related disciplines introductions from the editors precede each section introducing the texts demonstrating their significance and outlining the key issues surrounding the topic a companion website peopleplacespace.org extends the work even further by providing an on going series of additional reading lists that cover issues ranging from food security to foreclosure psychiatric spaces to the environments of predator animals

in the united states places of drink are historically linked to community and social interactions and such establishments often possess loyal patrons for whom going to the local bar is a natural and routine part of their daily life in *people place and attachment in local bars* john mcewen places drinking establishments at the fore of american geography as containers of material culture and collective history mcewen draws on ethnographic data collected in four local bars in west baton rouge louisiana to present a new unified theory of people place relationships mcewen highlights sense of place place attachment and the concept of rootedness

no journalist is better situated to reckon with the psychology of war than david finkel in *the good soldiers* his bestselling account from the front lines of baghdad finkel shadowed the men of a us infantry battalion as they carried out a gruelling 15 month tour that changed all of them forever now finkel follows many of those same men back home in a journey that is less about geography than of psychological terrain undertaken by people trying to heal or at the very least survive in *thank you for your service* finkel writes with tremendous compassion about the soldiers and about their partners and children the heartbroken wife who wonders privately whether her returned husband is going to get better or kill her and the heroic victims with the fresh taste of a gun in their mouths who will either make the journey back to sanity or to final ruin finkel takes us everywhere that the war is seeping into as it infects america to the courtrooms that are being filled with divorce and abuse cases and worse to bars and to fort riley in the mental health clinic to which the army is outsourcing its post traumatic stress disorder cases *thank you for your service* is an immense act of understanding shocking but always riveting unflinching but deeply humane
