In addition, notable authors are featured in each genre chapter, and multicultural and international literature is integrated throughout the book and then treated more fully in its own chapter. Current and future teachers will appreciate the authors' practical strategies for connecting secondary school students with young adult books, such as how to select books that students will read and enjoy, how to motivate resistant readers to read, and how to develop text sets for classroom study across the curriculum. Readers will be equipped with the knowledge to use trade books as excellent teaching and learning materials and will not be limited to using textbooks alone. Key features of literature across the curriculum are found in all genre chapters, giving examples of how young adult literature can help students and teachers in the content areas learn or present course content in a more interesting, memorable way. Extensive lists of recommended books, briefly annotated with topics and age levels, follow each genre chapter. One full chapter is devoted to addressing the specific needs of resistant readers, giving middle and high school teachers much-needed strategies for addressing common obstacles to reading and for motivating students to read. Every chapter presents one to three charts with information about milestone books, history of specific genres, and research.
