with the introduction of the literacy hour in 1998 the case for harnessing parental involvement in promoting children s literacy was stronger than ever originally published in 1999 this book offered a detailed and practical approach based on three key concepts keeping the child in the driving seat continuing support from the school to the parents and daily reading at home it is presented in an accessible manner and offers practical advice to teachers in running and evaluating a scheme it also gives parents a chance to think about the nature of their involvement at word sentence and text levels introducing them to the framework of the national literacy strategy good reading skills are essential for access to the wider curriculum yet above all reading is fun this book helped teachers parents and children to work together to make reading at home more enjoyable it was also to help ensure that children achieved the standards of literacy expected for their age by 2002 today it can still be used to help children learn to read

developing and supporting literacy is an absolute priority for all early years settings and primary schools and something of a national concern by presenting extensive research evidence rachael levy shows how some of our tried and tested approaches to teaching reading may be counter productive and are causing some young children to lose confidence in their abilities as readers through challenging accepted definitions and perspectives on reading this book encourages the reader to reflect critically on the current reading curriculum and to consider ways in which their own practice can be developed to match the changing literacy landscape of the 21st century placing the emphasis on the voices of the children

themselves the author looks at what it feels like to be a reader in the digital age children s perceptions of reading home and school reading reading in multidimensional forms the future teaching of reading essential reading for all trainee and practising teachers this critical examination of a vital topic will support all those who are interested in the way we can help future generations to become literate this book will encourage researchers and practitioners alike to redefine their own views of literacy and situate reading literacy within the digital world in which young children now live

praise for the first edition an excellent textbook which is well planned well written and pitched at the correct level for psychology students i would not hesitate to recommend greene and d oliveira to all psychology students looking for an introductory text on statistical methodology bulletin of the british psychological society learning to use statistical tests in psychology third edition has been updated throughout it continues to be a key text in helping students to understand and conduct statistical tests in psychology without panic it takes students from the most basic elements of statistics teaching them how psychologists plan experiments and statistical tests which considerations must be made when planning experiments how to analyze and comprehend test results like the previous editions this book provides students with a step by step guide to the simplest non parametric tests through to more complex analysis of variance designs there are clear summaries in progress boxes and questions for the student to answer in order to be sure that they have understood what they have read the new edition is divided into four discrete sections and within this structure each test covered is illustrated through a chapter of its own the sections cover the principles of psychological research and psychological statistics statistical tests for experiments with two or three conditions statistical tests based on anova analysis of variance conditions as well as tests for multiple comparisons between individual conditions statistical tests to analyze relationships between variables presented in a student friendly textbook format learning to use psychological tests in psychology enables readers to select and use the most appropriate statistical tests to evaluate the significance of data obtained from psychological experiments an errata sheet detailing the decision chart which is referred to can be downloaded by clicking here
