charter of human unavailability how much humanity will remain when states have indexed and chipped the world s population when algorithms learn to believe and churches begin to love data and technology in chipped by god when the shadow of knowledge is control a relentless panorama of our digitized present and future unfolds from ai supported surveillance structures to religious bureaucracies intoxicated by segregation and data to a society that is gradually surrendering its freedom to automated decision making systems the text combines theological depth with sociological analysis and technical clarity the question of human unavailability becomes more urgent the closer digital technologies come to the body where microchip implants biometric recording and digital indexes become the norm humans are at risk of being reduced to patterns scores and exploitable data what happens when the body becomes the

chipped key to its data when behavior and religious practice are quantified and the line between sin score and social evaluation becomes blurred and what reforms do society and the church need if they do not want to become moral copies of state surveillance but rather preserve and protect their hope in the diversity of creation especially against the logic of technical measurement this book is a wake up call against naive belief in technology and institutional inertia and for a humane future in which dignity does not degenerate into a variable in an ai model a responsible essay on power morality and machines and on how we can enter a digital future freely and clearly without losing our humanity even if the humanity of the planet is completely indexed

horrific changes are descending upon humanity most of them man made all of them threatening the survival of humankind on mother earth forever wars the threat of nuclear destruction the ecology collapsing worldwide swelling waves of migrants and unprecedented global inequality of wealth are upon us the dominant modern worldview prevailing for many centuries has produced all the above and needs swift and radical change central to this unfolding tragedy stands the united states boasting its exceptionalism alexis de toqueville s democracy in america coined and defined how america was an exceptional nation however the america he lauded in the early 1800s and what it has become today are as different as antarctica and hawaii this book is designed to pry open the eyes and minds of people everywhere about the true nature of the us as a spiritual and political but not militaristic nation one to emulate and with whom to collaborate on helping resolve the violence and myopia plaguing humankind right now it illuminates a new way to reshape american thinking and that of the whole world sensibly and with sensitivity to all humanity and the planet itself but you must read to the last word to absorb the entire vision
