leading depression authority paul gilbert presents the compassionate mind a breakthrough book integrating evolutionary psychology new insights from neuroscience and mindfulness practice this combination of techniques forms a new therapy called compassion focused therapy that can enhance readers lives

based on the latest work from professor paul gilbert obe bestselling author of the compassionate mind and buddhist expert choden professor gilbert has spent the past twenty years developing a new therapy called compassion focused therapy cft which has an gained international following in recent years mindfulness is being used increasingly to treat common

mental health problems such as depression stress and stress related insomnia in this ground breaking new book professor gilbert along with his co author choden combines the best of compassion focused therapy with the most effective mindfulness techniques the result is an extremely effective approach to overcoming everyday emotional and psychological problems and improving one s sense of wellbeing

wise and perceptive it teaches self compassion and the consolations of kindness i recommend it sally brampton author of shoot the damn dog develop your feelings of compassion and increase your sense of well being in societies that encourage us to compete with each other compassion is often seen as a weakness striving to get ahead self criticism fear and hostility towards others seem to come more naturally to us the compassionate mind explains the evolutionary and social reasons why our brains react so readily to threats and reveals how our brains are also hardwired to respond to kindness and compassion research has found that developing kindness and compassion for ourselves and others builds our confidence helps us create meaningful caring relationships and promotes physical and mental health far from fostering emotional weakness practical exercises focusing on developing compassion have been found to subdue our anger and increase our courage and resilience to depression and anxiety as one of britain s most insightful psychologists gilbert illuminates the power of compassion in our lives oliver james author of affluenza

compassion focused therapy clinical practice and applications offers evidence based guidance and extensive insight into the science behind compassion focused therapy the first section of the book explores the evolution and physiological infrastructures of caring and how compassion arises when humans use their complex cognitive competencies to address suffering deliberately and intentionally with this framework and basis the next sections of the book explore cft applied to groups specific interventions such as chair work the importance of applying the principles of the therapy to oneself the cft therapeutic relationship and a chapter offering a systematic review of the evidence for cft the third section offers a series of multi authored chapters on interventions for a range of different mental health problems such as depression anxiety trauma and many others being the first major clinical book on compassion focused therapy with leading international researchers and clinicians addressing central problems this landmark publication will appeal to psychotherapists from a variety of schools as well as being a vital resource for compassion focused therapists

many of us have a tendency to measure our self worth by comparing ourselves to others but when we fail to reach our own families communities or societies ideals this often results in feelings of inadequacy anxiety and low mood we may become self critical experience shame and a sense of being different from others although an improvement in self esteem is what we may feel we want this is not necessarily what we need this is because self esteem is often associated with times when things are going well but can fail us when things do not go to plan in contrast self confidence built from self compassion can help us when things are going well

and make us more resilient when things are difficult this book uses the ideas and practices of compassion focused therapy to help build self confidence attention is also paid to difficulties that often come hand in hand with lack of self confidence such as anxiety depression substance use and anger

please note this is a companion version not the original book sample book insights 1 life can be difficult and perplexing and humans have always sought meaning and happiness this book will explore ways to approach this quest we will concentrate on the benefits of developing compassion with a special focus on self kindness and self compassion 2 compassion is beneficial for us and it has been proven by researchers that when we fantasize and think about compassion this does interesting things to our brains and bodies 3 many spiritual traditions have seen this life as one of suffering from which we are seeking to escape we are separated from god and are seeking to return the soul must learn spiritual lessons through suffering which is the point of reincarnation 4 compassion is the wellspring of peaceful well being it is not just a moral position but a way of training our brains that affects connections in a very important way

we can all get angry from time to time but when it gets out of hand it can have a serious impact on many aspects of our lives as well as having an impact on our physical and mental health and our ability to engage in healthy relationships it can also potentially have an enormous impact on society the media is rife with stories of domestic violence tragic stories of shaken babies road rage incidents and bullying mounting evidence suggests that all this anger can be harmful to us in a number of different ways as well as the enormously damaging impact chronic anger can have on our relationships with other people it is being linked to health problems such as cardiovascular disease and irritable bowel syndrome ibs and mental illnesses such as depression and post traumatic stress disorder ptsd this invaluable self help guide will enable the reader to recognise their personal anger problems gain an understanding of what lies behind their anger and use techniques based on compassion focused therapy cft to deal with their anger more effectively cft was initially developed by professor paul gilbert author of the *compassionate mind* to treat those with high levels of self criticism it uses the proven research based techniques of cbt and other therapies with a special focus on the importance of developing inner compassion in order to alleviate feelings of shame develop a more balanced outlook and promote resilience it incorporates elements of mindfulness and tibetan buddhism with recent research on human development and studies of the brain it is increasingly used to treat a wide range of emotional and psychological problems including depression overeating shyness trauma anxiety and anger

research into the beneficial effect of developing compassion has advanced enormously in the last ten years with the development of inner compassion being an important therapeutic focus and goal this book explains how compassion focused therapy cft a process of developing compassion for the self and others to increase well being and aid recovery varies from other
