following written in water 2002 this is the second publication devoted to steven holl s legendary watercolors four hundred watercolors represent the creative process of this renowned and influential american architect and reveal his highly personal method developed over many years containing preliminary ideas and sketches of all major projects holl is known for his sculptural architecture and his virtuosic use of light and watercolors are the ideal means to visualize these characteristic aspects of his work at a time of rapidly changing technology in the service of architectural design these watercolors become spectacular examples of a low tech method the results are invariably original works of art the water colors are juxtaposed with photographs of the built architecture and emphasize the crucial aspect of scale oclc

how do architects use color do they adopt a different strategy or starting point for every project do they gradually cultivate individual color palettes which develop alongside their body of built work do they utilize or are they aware of the body of theoretical work that underpins the use of color in the past and forms the basis of most of the color systems commercially available today informed by the author s thirty years in architectural practice and academia this book investigates documents and analyzes the work of a number of contemporary architects in order to respond to these questions and provide a clear reference of contemporary color use the book suggests a holistic approach to the integration of color in architecture through a series of thematic essays the text explores and reveals underlying principles in color design and application case studies include ahmm caruso st john erich wiesner and otto steidle gigon guyer o donnell tuomey sauerbruch hutton steven holl un studio the book provides clear insights into how particular contemporary architects use color confidently and intelligently as an integral part of their design philosophy in conjunction with their choices of materials and finishes offering a stimulating view of the history of color theory and pragmatic advice to practicing architects this book will be inspiring to both design professionals and students

architectural lighting the latest addition to the architecture briefs series provides both a critical approach to and a conceptual framework for understanding the application of lighting in the built environment the key considerations of lighting design are illuminated through

accessible texts and instructional diagrams six built projects provide readers with concrete examples of the ways in which these principles are applied short essays by architect steven holl artist sylvain dubuisson and landscape architect james corner explore the role of lighting in defining spatial compositions

the architecture of full scale mock ups looks at the theory and contemporary practice of creating full scale architectural mock ups this book serves as an introduction to the various forms of full scale mock ups which occur today to broaden the definition of mock ups nick gelpi dives deep into the use of mock ups in seven high profile and global contemporary case studies instead of the presentation drawings and final building photos the documentation of case studies relies on process photos interviews and moments of tension in the execution of each building with never before published content case studies include buildings from all over the world including the quincho tia coral and teleton building copper house ii the pérez art museum miami the cité de l océan et du surf museum and more investigating unique case studies to answer how and when full scale mock ups occur today this book is ideal for professionals and students of architecture studying materials and representation design build and professional practice

this book reports on several advances in architectural graphics with a special emphasis on education training and research it gathers a selection of contributions to the 19th international conference on graphic design in architecture ega 2022 held on june 2 4 2022 in cartagena spain with the motto beyond drawings the use of architectural graphics

a critical overview of contemporary design and its place within the broader context of art history a companion to contemporary design since 1945 introduces readers to a collection of specially commissioned essays exploring the complex areas of design that emerged through the latter half of the twentieth century design history design methods design studies and more recently design thinking the book delivers a thoughtful overview of all design disciplines and also strives to stimulate inter disciplinary debate and examine unconsidered convergences among design applications in different fields by offering a new perspective on design the articles assembled here present a

challenging account of the boundaries between design history and its cognate disciplines especially art history the volume comprises five sections time place space objects and audiences that discuss environments for design and how we interact with designed objects and spaces notable features include 24 new essays reflecting the current state of design history and theory and examining developments on a global basis contributions by eminent scholars and practitioners from around the globe enriched throughout with illustrations a companion to contemporary design since 1945 provides a new and thought provoking revision of our conception and understanding of contemporary design that will be essential reading for students at both undergraduate and graduate levels as well as researchers and teachers working in design history theory and practice and in related fields

in this overview of lighting design a variety of architectural spaces are profiled to show lighting that meets highly specific demands

includes abstract of the proceedings of the county agricultural societies
